PROFILE

Adaptable Software Engineer with hands-on experience building production-grade web applications. Founding engineer at a study abroad consultancy, owning end-to-end product development, deployment, and growth operations.

EXPERIENCE

FE Global Education — Study Abroad Counselling

Founding Software Engineer | Growth & Operations | Nov 2024 – Jun 2026

- Architected and built feglobaleducation.com from scratch — React, Node.js, Tailwind CSS, Cloudflare
- Independently built and deployed greenrevolutionservices.com end-to-end, managing hosting and security via Cloudflare
- Supported student acquisition and counselling ops as a founding team member

PROJECTS

F Player Profile | f-player-profile.vercel.app

ReactJS, Tailwind CSS, REST API

Football player profile and statistics platform with live data

- Consumed external REST APIs for real-time player stats and profiles
- Built fully responsive UI with ReactJS and Tailwind CSS

Celeb Details | celeb-detials.vercel.app

ReactJS, Tailwind CSS, External API

Celebrity search platform powered by third-party API

- Integrated celebrity API for search, biography, and media data
- Dynamic real-time search with clean, responsive interface

Sportsweed | sportsweed.netlify.app

ReactJS, Tailwind CSS, Live Data

Sports platform with live match links and real-time data

- Integrated live match data for real-time sports updates
- Responsive sports dashboard built with Tailwind CSS

Sumaiya Engineering | sumaiyaengineering.vercel.app

HTML, CSS, JavaScript

Freelance client website with polished, professional UI

- Handled requirements, design, and deployment independently
- Delivered strong visual design with professional layout

E-Commerce Platform | ecommerce-ts-react.vercel.app

React, TypeScript, Tailwind CSS

Full-stack shopping app with TypeScript for type-safe architecture

- Product listing, cart, and checkout with type-safe React components
- Scalable architecture using TypeScript across the full codebase
